#Bayart Innovations at your side more than ever

Overwiew

Bayart – Innovations started its long journey with a distinctive supply and French design philosophy with a passioned team 15 years ago. Exceptional knowledge and expertise in production comes up todays' one of the integrating Airline Partner with dedicated souls. We call our name to be innovative character in every stage of design, manufacture, supply and consultancy. Today, Bayart-Innovations is one of the world's progressive independent provider of on-board products, services and solutions, serving 650 million passengers and more than 50 airlines with an experience of 15 years.

Our core business : Inflight Comfort Amenities & OBP with a wide range of Brans portfolio

Bayart specialized in supplying high quality airline items including amenity kits, blankets, linen, children's gifts, tableware, headsets, including noise cancelling and galley equipment. Our dedicated in-house creative team has a strong ability to design and develop bespoke inflight items which will enhance your passenger experience.

Organization and Management

For the best efficiency, all departments are supported by a fully computerized internal service which handles all the products, the orders, the queries and provides full technical information with total transparency and constant follow up and updates. The management of Bayart Innovations is based on a corporate strategy using creativity, communication, planning and information to customers' success.

The Team

Bayart team formed by 'Textile, Producton, Marketing, Design, Airline Business Integration and Cabin Crew' professionals to cover all Airline and passenger expectations. Our team does not focus only design and supply, we are simulating all our solutions on behalf of cabin, operational and procurement sides of Airlines. More than 40 people in France and Asia are available to serve you at every stage: offering ideas, design and development of samples, purchasing, manufacture and delivery.

Fight COVID19

Bayart- Innovations urgently take action in the first days of pandemic and re-setup 40% of the partnered manufactures for the PPE products which means 80 % of our PPE products are coming from Bayart production centers. We are honored to support our customers and be the part of their precautions against COVID19 with 8 million+ masks, 3 million+ wipes, 2 million+ dezenfectants and so on…
Let us to be with you in your fight… the right product and right price.
